

Test Plan for Admin Event Module

1. Introduction

The purpose of this test plan is to ensure the functionality, reliability, and performance of the Admin Event module.

This module enables administrators to manage events, including creation, updating, and status changes.

2. Test Scope

The Admin Event module's primary features include:

- Event creation and updates.
- Managing event status (e.g., suspend, publish, cancel).
- Setting committees and accreditation requests.
- Fetching event details and statistics.

3. Test cases

Test Case ID	Scenario	API Endpoint	Expected Result
TC001	Create a new event	POST /Admin/Event	201 response code
TC002	Fetch event details by ID	GET /Admin/Event/{event}	200 response code
TC003	Update an existing event	PUT /Admin/Event/{event}	200 response code
TC004	Suspend an event	PATCH /Admin/Event/{event}/Suspend	200 response code
TC005	Fetch event statistics	GET /Admin/Event/Statistics	200 response code
